

VERIT FRUIT

Fruits of the Earth

History and tradition

A family of farmers from
Bellcaire d'Urgell (Lleida)

Our family has been growing peaches since
1960, pears and apples.

Currently one part of the fruit turned into
jam and preserves.

We work together with other farmers the
area to get more flavors and combinations.

From village to world

Traditional jam with exotic influences

The preparation of the jam is one completely handmade task, the good taste is only obtained with patience, love and the careful handling of the ingredients.

You will notice the love of work, from the production of the fruit and its selection to the preparation in our kitchen.

Approved jams

During the first year, we have 10 international matches won:

1 recognition star of the Great Taste Awards 2019

1 bronze medal at the World Marmalade Awards in Japan

3 bronze medals at the World Marmalade Awards in Australia

5 quality prizes in England and Australia and we also created the "Apple with electric flower" marmalade for the Science & Cooking World Congress in Barcelona.
